Time: 4-7pm

Location: SUB in
the Gipson
Room.

Learning Community (LCs) and Service Learning (SL) Workshop.

Exploring ways to Put Learning in Research & Writing

Highlights– Come Along on a learning journey.

- As Glenda explores how she began using SLs and LCs, Participants will have the chance to map their own development as researchers and teachers of writing. Folks will extract their own "significant moments" and Glenda will share hers in an effort to set the stage for embedded research (and writing) instruction.
- As a group, experience the process of developing LC and SL and how specific research techniques are practiced in these contexts.
- Participants will have the opportunity to think about developing their own SL and LC projects that embed research instruction and writing. We will also explore how Classroom Learning Communities mirror Professional Learning Communities.
